

Guest Lecture Report

On 16th September, 2022 our college organized a guest lecture of Dr Chetan Suthar (Co-founder, Global Institute of Health Science). He delivered lecture on “Carrier Opportunities and Importance of clinical pharmacy and IPR”. He shared his views, ideas and experience with B. Pharm and M. Pharm students very nicely and comfortably. This lecture was organized by Dr. Amish J. Patel and his team. The whole event is possible due to kind support of principal, teaching and non-teaching staff members and dear students.

Some Snapshot of the lecture.
